SUPPLEMENTARY LIST OF PERENNIALS FOR SPRING PLANTING

Business was rather better last fall than we anticipated and, as a consequence, many varieties usually included in our general illustrated list were sold up so closely that we cannot risk our usual unlimited offer. Of the following varieties we only have available some five or six hundred plants of each kind. Orders for them will be filled only so long as our present, properly matured, first class plants last. Late orders received after these plants have been sold must either be declined or carried on back order for fall planting.

ARTEMISIA, SILVER KING

The startling new Southernwood and absolutely the best of the decorative plants. The white-leaved foliage makes the plant look as though it were made of frosted silver, which gleams in the sunlight, producing a color contrast which can be secured with no other plant. It makes the most wonderful bouquets either alone or in

combination with other flowers. If cut just before the first frost and put in a vase without water, it will last for months throughout the winter. We can suggest nothing as useful either for the garden or for the house. 3 for 85c; \$2.50 per doz.

THE PERENNIAL FOXGLOVES (Digitalis)

For picturesque, stately beauty, Foxglove is not to be surpassed by any plant. In small groups in the garden it is most lovely. Planted among shrubs or naturalized on the edge of the woods, in the orchard, or along brooks, the effect is stunning. For over a century it has been the most popular plant in English gardens and its value is now being appreciated in America.

THE SHIRLEY. A magnificent new strain of perennial Foxgloves created by the Rev. W. Wilkes in England, which produces plants 6 to 7 feet tall with gorgeous flower heads over 3 feet long. The individual flowers are colored white, pink, and rosy red, attractively dotted with chocolate and crimson. A magnificent and permanent addition to any garden. 3 for 85c; \$2.50 per doz.

EUPATORIUM COELESTINUM (Hardy Ageratum)

Of the hundreds of varieties of plants in our display gardens none are so popular as the so-called Hardy Ageratum. Almost without exception every customer who calls here and sees it in bloom orders it. Its color, a lovely light purple, is almost identical with the famous annual Ageratum, but unlike its namesake, it is a perennial and hardy,

standing, in our garden, temperatures down to thirty degrees below zero. It is even a more prolific bloomer than the tender Ageratum and develops literally myriads of its lovely flowers. A truly wonderful border plant, which is exceptionally fine for cut flowers. 3 for 60c; \$2.00 per doz.

NEW COWSLIP GIANT BOUQUET

The old fashioned Cowslips produced flowers less than one inch in diameter, borne on very short stems. Notwithstanding this fact the old Cowslips were among the most popular of hardy plants. In color, in habit of growth, and ease of culture they were hard to beat.

However, the new Giant Bouquet does beat them. The

flowers, often two inches in diameter, are truly magnificent. All the lovely old colors, white, pink, yellow, scarlet, purple, crimson, are present in the new strain with even greater intensity and splendor. The stems are long enough and strong enough for cutting as well as for making a real display in the garden. 3 for \$1.00; \$3.00 per doz.

GEUM

Lovely tufted perennials producing a wealth of attractive flowers which bloom continuously from May to July. The plants grow about 18 inches high and are one of the finest of the garden plants, and they may also be used in the larger rockeries. Among professional florists the Geum is in tremendous demand for cut flowers, being considered one of the finest of all hardy plants for this purpose. Try combining Lady Stratheden and Mrs. Bradshaw in one bouquet and you will know why.

LADY STRATHEDEN. Tremendous double flowers colored rich golden yellow. 3 for 85c; \$2.50 per doz.

MRS. BRADSHAW. Glorious double flowers colored a fiery red. 3 for 85c; \$2.50 per doz.

SEA LAVENDER

STATICE LATIFOLIA. The famous Baby's Breath is the most popular plant in the world for embellishing bouquets, and is used literally by the millions. Splendid as the Baby's Breath is for this purpose, the Sea Lavender is even better. If the amateur gardeners knew what we professionals know, the nurseries of America could not supply the demand for this great plant. Its lacy, delicate, lovely lavender-blue flowers are incomparably the finest bouquet embellishment in existence; besides the plants are indescribably lovely in the garden. 3 for 85c; \$2.50 per doz.

STATICE DUMOSA. The new Sea Lavender which created a tremendous sensation in English gardens. The flowers are produced in dense cushions and colored a most exquisite, pure cool silvery white. 3 for 90c; \$2.75 per doz.

MIXED POPPIES

We have taken plants from our named Poppies which will not be needed for next fall's business and made a mixture of them. As long as they last, they will be sold at the very special prices quoted. No named varieties can be furnished at this price. 3 for 50c; \$1.50 per doz; \$11.00 per 100.

ORIENTAL POPPIES

"I remember well the first time I saw an Oriental Poppy. I was a boy then, and it excited me wonderfully, and I thought it was the most remarkable flower in the world. And now, after 50 years have gone by, and I have seen all the known flowers of the world, I am still of the opinion it is wonderful; one of the most striking and effective perennials in cultivation." Our founder, Mr. J. Wilkinson Elliott, wrote this 50 years ago and it is still true. One who has not seen the blazing beauty of the Oriental Poppies has not yet seen a garden.

CERISE BEAUTY. Very large, bright pink flowers with purple blotch. 3 for 85c; \$2.50 per doz.

HENRI CAYEUX. New Poppy producing enormous flowers colored lovely orchid. No other color remotely like it in the Poppy family. 3 for 90c; \$2.75 per doz.

LULA A. NEELEY. This is the newest of the Oriental Poppies and is so superior to anything which has preceded it that it becomes by comparison the outstanding garden plant. The color is a brilliant ox-blood and does not fade. The tremendous, gorgeous flowers are borne on strong, erect stems. 3 for \$1.30; \$3.75 per doz.

OLYMPIA. In Olympia we have at last a true double Poppy. The color is a brilliant, vivid flame-scarlet overlaid with golden salmon. The double flowers are the earliest to bloom and are produced in tremendous quantities. 3 for 70c; \$2.00 per doz.

ORIENTALE. Tremendous cup-shaped blooms of the brightest, most vivid crimson-scarlet. 3 for 70c; \$2.00 per doz.

PERRY'S WHITE. The most startlingly distinct Poppy variety and one of the world's outstanding flowers. Tremendous blooms of the purest satiny white with a crimson blotch at the base. Grown adjacent to the colored sorts, the effect is really breath-taking. 3 for \$1.40; \$4.00 per doz.

SILVERBLICK. Tremendous Poppy flowers colored cameo-pink with great glistening blue-black blotches at the base of the petals which make a startling lovely color contrast. 3 for 85c; \$2.50 per doz.

If wanted by Parcel Post, add 13c for each 3 plants; 27c for a dozen plants.

COREOPSIS SUNBURST

A new Coreopsis and the first double to be created. Sunburst produces truly full double flowers which measure more than 2 inches in diameter. The color is the same

clean, brilliant yellow as the color of Mayfield Giant. Sunburst flowers are sturdy and substantial and when cut they will keep in water for over a week. 3 for 85c; \$2.50 per doz.

COREOPSIS MAYFIELD GIANT

The older Coreopsis grandiflora was absolutely indispensable both in the garden and for cut flowers. If one gardened at all, one simply had to have it. Its reign is over now since it has been superceded by the new Mayfield Giant. In addition to producing more flowers, Mayfield

Giant produces flowers over 3 inches in diameter or more than twice as large as the old Grandiflora. Finally, the lovely yellow color is even cleaner and more brilliant. 3 for 85c; \$2.50 per doz.

NEW HYBRID DAY LILIES

Dr. Stout, of the New York Botanical Gardens, has performed a horticultural miracle. The older Day Lilies were always among the loveliest and most fascinating plants in existence. Dr. Stout has taken these older varieties and by most careful hybridization and selection has created a new race of Day Lilies of indescribable beauty.

The only thing that prevents these new Day Lilies from being planted by the million is that there are not above five or six thousand in existence the world over. Last spring we were able to secure a small collection of these plants at a very special price, and always alert to give our customers the benefit of anything good that may be going, we grabbed them and as long as they last we will pass the saving along. Obviously these plants must be offered subject to prior sale, and we reserve the right to stop sales at any time and without notice.

AURANTIACA MAJOR. Sweet scented flowers of great size, colored dark, glowing orange. For years the personal favorite of Mr. Elliott. 3 for 85c; \$2.50 per doz.

CINNABAR. Delicate brownish red sepals and petals glistening golden; throat cadmium-yellow, outer half of

petals sprinkled with rich fulvous red. Bloom spread 5 inches. 3 for 85c; \$2.50 per doz.

KWANSO DOUBLE. The base of the petal is pure golden yellow for about 1 inch above which shines a broad halo of sun-glow-red. The petals beyond the halo are glistening light orange with the veins streaked with the same sun-glow-red as the halo. The diameter of the flower is a full 6 inches. 3 for 75c; \$2.00 per doz.

OPHIR. Dark golden yellow flowers 5 inches across. One stem frequently carries twenty-five or more of these giant golden Lilies. \$1.00 each.

SIR MICHAEL FOSTER. The clear yellow flowers with long, trumpet-shaped throats measure from 5 to 6 inches across. \$1.00 each.

VESTA. Deep orange flowers with a glistening golden sheen. 3 for \$1.00; \$3.00 per doz.

WAU-BUN. Large flowers of cadmium-yellow, slightly sprinkled with traces of fulvous red. Flowers glisten as though made of pure gold. 50c each; \$5.00 per doz.

GLOBEFLOWER (Trollius)

These lovely Buttercup-like flowers are first produced in May. If growing conditions are normal they may produce flowers during the entire summer. If September should be cool and moist a third crop may develop, which will remain until frost. Professional landscape architects are unanimous in declaring the Globeflower to be the finest and most practical plant in existence to say nothing of being one of the loveliest.

EUROPAEUS. Glorious blooms 2 inches in diameter colored waxy lemon-yellow.

METEOR. The lovely deep orange flowers are unusually large

SALAMANDER. A lovely new variety with large open flowers colored orange. The very first to bloom.

All varieties listed above: 3 for \$1.00; \$3.00 per doz.

DORONICUM BUNCH OF GOLD

This lovely hardy plant has large yellow flowers, 2½ to 3 inches across, which resemble the tender Marguerite of the florists' shops. The flowers are produced in the early spring. The plant is not only one of the finest in the perennial garden, but the flowers make very lovely bouquets. 3 for 90c; \$2.75 per doz.

HARDY CARNATIONS

The Carnation flowers which you buy from your florist are tender plants which must be grown in a greenhouse. For years there has been a persistent demand for hardy Carnations for garden use and the plant breeders have answered the demand, giving us five new creations. If the flowers are cut off, the plants will produce Carnations for you all season. The flowers resemble the florists' Carnation and are very lovely.

CRIMSON KING. The gorgeous new crimson Carnation, dazzling in color, and the finest of all the Carnations. 3 for 95c; \$2.75 per doz.

GOLDEN SUN. The newest and finest yellow Carnation. 3 for 80c; \$2.25 per doz.

GRENADIN WHITE. The stunning new white Carnation. 3 for 80c; \$2.75 per doz.

KING OF BLACKS. The darkest and richest red Carnation. 3 for 80c; \$2.75 per doz.

TRIUMPH ROSE. The newest and finest pink Carnation. 3 for 80c; \$2.75 per doz.

CORALBELLS

Handsome plants with heart-shaped leaves, neat and compact, which may be used either in the perennial border, flower beds or rock garden. The lovely, graceful flowers are borne in panicles on 18 inch stems and are produced in profusion from June until September. The Coralbells also make one of the most satisfactory cut flowers in existence.

RED CORALBELLS. The flowers of this lovely variety are colored a shimmering coral-red. 3 for 85c; \$2.50 per doz.

PINK CORALBELLS. Gorgeous lovely, bright pink flowers and three times as many of them as the other varieties. 3 for 85c; \$2.50 per doz.

PAINTED DAISY

The Painted Daisies are so easily cultivated that they are recommended to all who possess a garden. They are perfectly hardy and absolutely invaluable for cut flowers through the summer and autumn months. The flowers are bright and elegantly borne on long stems; most convenient for vase decoration. The Painted Daisies are veritable colored Marguerites and possess a range of color and hardness that the Marguerites might envy in vain. Nothing can surpass the Painted Daisies for profusion of flowers; flowers succeed flowers without stint, and the blossoms are not injured by storm or sun. Painted Daisies grow freely in any ordinary garden soil, and in order to secure size, brilliancy and number of flowers, plenty of ordinary well-rotted manure may be added to well-trenched, well-drained soil, and plenty of water may be given when they are in bud in the dry summer months. Our plants are of the famous Kelway strains.

ATROSANGUINEUM. A new Painted Daisy with larger flowers than the older type. There are no whites or pinks in this race; the colors are all shades of vivid and brilliant red and crimson. Introduced for the first time in the United States, we know it will achieve the same tremendous success it had in England last year. 3 for 85c; \$2.50 per doz.

ROSEUM. All colors mixed. Rising above the lovely fern-like foliage stand the beautiful flowers ranging in color from pure white to pink, to the deepest crimson. 3 for 85c; \$2.50 per doz.

If wanted by Parcel Post, add 13c for each 3 plants; 27c for a dozen plants.
